

VOLT EDGE

Gives You the Edge

This Electrical Equipment in Hazardous Areas course covers the principles of hazardous area installation, maintenance, inspections, and breakdowns of explosion-protection equipment with a high emphasis on practical inspections.

Enrol in our accredited course and participate in a 5 day face to face training delivery.

Upon successful completion, you will receive a Nationally Recognised Statement of Attainment.

FEATURED SKILLS

**Simulated
Work
Environment**

Inspections

**Maintain
& Testing**

**Installs &
Breakdowns**

VOLT EDGE

Gives You the Edge

UEENEEM080A – Report on the integrity of explosion – protected equipment in hazardous area.

UEENEEM019A – Attend to breakdowns in hazardous areas – Coal Mining.

UEENEEM020A – Attend to breakdowns in hazardous areas – Gas Atmospheres.

UEENEEM021A – Attend to breakdowns in hazardous areas – Dust Atmospheres.

UEENEEM022A – Attend to breakdowns in hazardous areas – Pressurisation.

UEENEEM023A – Install explosion-protected equipment and wiring systems – Coal Mining.

UEENEEM024A – Install explosion-protected equipment and wiring systems – Gas Atmospheres.

UEENEEM025A – Install explosion-protected equipment and wiring systems – Dust Atmospheres.

UEENEEM026A – Install explosion-protected equipment and wiring systems – Pressurisation.

UEENEEM027A – Maintain equipment in hazardous areas – Coal Mining.

UEENEEM028A – Maintain equipment in hazardous areas – Gas Atmospheres.

UEENEEM029A – Maintain equipment in hazardous areas – Dust Atmospheres.

UEENEEM030A – Maintain equipment in hazardous areas – Pressurisation.

UEENEEM038A – Conduct testing of hazardous areas installations – Coal Mining.

UEENEEM039A – Conduct testing of hazardous areas installations – Gas Atmospheres.

UEENEEM040A – Conduct testing of hazardous areas installations – Dust Atmospheres.

UEENEEM041A – Conduct testing of hazardous areas installations – Pressurisation.

UEENEEM042A – Conduct visual inspection of hazardous areas installations.

UEENEEM043A – Conduct detailed inspection of hazardous areas installations – Coal Mining.

UEENEEM044A – Conduct detailed inspection of hazardous areas installations – Gas Atmospheres.

UEENEEM045A – Conduct detailed inspection of hazardous areas installations – Dust Atmospheres.

UEENEEM046A – Conduct detailed inspection of hazardous areas installations – Pressurisation.

UEENEEM054A – Plan electrical installations of hazardous areas – gas.

UEENEEM055A – Plan electrical installations of hazardous areas – dust.

UEENEEM056A – Plan electrical installations of hazardous areas – pressurisation.
